

An aerial photograph of a residential neighborhood. The houses and streets are in a muted, brownish-grey color. One house in the center is highlighted in vibrant colors: a blue roof, a green lawn, and a colorful garden bed. The text is overlaid on the right side of the image.

shawgrass®

Product Selection
GUIDE *Make your grass greener.*

A brand is a promise to the customer and the Shaw name carries a pretty powerful promise. The leading producer of tufted products in the world, *Shawgrass knows how to make turf.* You'll get the quality of the Shaw brand, along with the aesthetic benefits you'll enjoy for years to come.

Shawgrass offers commercial, residential, pet and recreational turf with the world class innovation you have come to know from Shaw. So whether you're enjoying the backyard, adding to your curb appeal at home or at the office, or looking for a better solution for your pets, Shawgrass has you covered.

A basic system construction

(actual construction will vary based on type of installation)

Residential

Landscape

With Shawgrass, you will be the talk of the neighborhood, because the grass is greener on the other side. Neighbors will look with envy as they mow their lawn on a Saturday while you're relaxing by the pool or enjoying the big game.

Let the kids roll around in a yard free from harmful fertilizers and pesticides. Don't worry about the heat during the summer with our patented HydroChill coated infill, which can cool surfaces 30-50 degrees.

Shawgrass has the product offerings that can transform an outdoor space into the focal point of a home. Together, we can create an outdoor space you and your family can enjoy by providing a rich, lush, and beautiful look year-round.

Aesthetics

A variety of choices to fit your design

Cooler

Commercial

Landscape

Shawgrass can turn an outdoor space into an area that looks natural and is functional. Our synthetic turf will create an inviting and professional atmosphere for both employees and customers.

Synthetic turf from Shawgrass is densely constructed to provide an outdoor area with unmatched realism and curb appeal. Our turf systems can help save money on annual maintenance costs. Being almost maintenance-free allows you to focus on your business priorities and not on landscaping. Let Shawgrass help enhance your brand and save money all while giving you a professional landscape look year-round.

Performance

Active Lifestyle

With more initiatives to stay fit and improve the overall health of your body, doesn't it make sense to also improve the areas that help you do so? With Shawgrass performance turf you can turn your gym or indoor sporting venue into a top notch facility.

Performance turf products will hold up to the wear of an indoor facility that is in constant use. Wear testing indicates that our Shawgrass products can outlast those of competitors and maintain integrity even with heavy traffic. So while you're pushing it to the max, our turf is right there with you keeping up with the workout.

Whether you're a golfer looking to improve your short game, a parent trying to help your little slugger get ahead in the game, or just looking to entertain your guests with a round of bocce ball, Shawgrass has you covered with our active lifestyle turf.

Instead of investing a great deal of time and money into improving your game through the use of public recreational facilities with limited business hours, invest in improving your back yard so you can practice when you want.

Shawgrass offers a complete line of putting turf, batting cage turf, and recreational turf, all designed to look and perform just like the real thing.

Playground

Pet

Safety is our number one priority, especially for children. That’s why we created a line of synthetic turf specifically for playgrounds. Commercial playgrounds, like public parks or school playgrounds, create more traffic and this could easily create more wear on synthetic turf.

Our playground turf is designed for “high use” play areas and offers the best in durability and return on investment. Shawgrass is certified by the International Play Equipment Manufacturers Association (IPEMA), and Americans with Disabilities Act (ADA) accessible. This unique turf system, with engineered padding, can easily be combined with the HydroChill cooling option to provide safety and comfort solutions unparalleled in the industry.

Our pets are a big part of our family, and we know they’re a big part of your family, too. With Shawgrass pet turf, animals will love their new space, except they may be upset they can’t dig anymore holes.

Our tough turf and drainage system help make life easier by creating a yard that requires almost no maintenance. Plus, it’s safe because it contains no harmful pesticides and fertilizers, and when your pet has to go, our no mess surface is easy to clean.
